In general, public methods should meet very high standards for robustness (not crashing or corrupting data due to bad input) and security awareness (not allowing unexpected input to trigger an exploit). But for internal, protected, and private methods, it will often be reasonable to follow more relaxed standards, since one has full control over what inputs each method can receive.

In the United Kingdom, independent schools are fee-charging schools, some endowed and governed by a board of governors and some in private ownership. They are independent of many of the regulations and conditions that apply to state-funded schools. For example, pupils do not have to follow the National Curriculum. They are sometimes described as 'private schools' although historically the term ...
