Principles and Practice (3rd Edition) (Robertson,2012) - Academia.edu

Air carbon arc cutting, also referred to as metal arc gouging, and previously as air

Access Free Welding Principles And Applications 4th Edition

arc cutting, is an arc cutting process where metal is cut and melted by the heat of a carbon arc. Molten metal is then removed by a blast of air. It employs a consumable carbon or graphite electrode to melt the material, which is then blown away by an air jet.
